CREATE  
MEMORABLE  
FAÇADES

Think Trespa

TRESPA®

# WHERE COMPELLING AESTHETICS AND LIMITLESS DESIGN POSSIBILITIES MEET

DISCOVER AN ENORMOUS RANGE OF DESIGNS. UNIQUE PATTERNS. RHYTHMS AND DEPTHS. AND ENDLESS, LONG-LASTING COLOURS. ALL BROUGHT TOGETHER IN HIGH-END MATERIALS AND FINISHES THAT PROMISE COMPELLING AESTHETICS AND ALMOST LIMITLESS DESIGN POSSIBILITIES. THE TRESPA® METEON® COLLECTION OFFERS HIGH-END CLADDING OPTIONS TO REIMAGINE EVERY PROJECT AND DESIGN YOUR NEXT-GENERATION ARCHITECTURAL HIGHLIGHT.

Create perfect one-of-a-kind effects. Or simply look for other value-adding options to determine a distinctive look and underline the qualities of a building. All according to your vision and ideas. It's now possible, with Trespa® Meteon®.

## EVERYTHING YOU WANT

This stunning collection features cladding panels for innovative and functional ventilated façade systems, balconies, and sunblind solutions. Available in a broad range of looks, such as Metallics, Lumen, Focus, Naturals and Woods. You even can pick different colours and finishes. Allowing you to realize almost everything you want, exactly in the way you want.

## LONG-LASTING ENJOYMENT

The entire collection is highly weather resistant, so sun and rain will have no significant effect on a panel's surface. They're also easy to clean and highly scratch and impact resistant. And they all come with a 10-year limited warranty.

## HIGH-END QUALITY

Trespa® Meteon® is a decorative high-pressure compact laminate (HPL) with an integral surface manufactured using Trespa's unique in-house technology: Electron Beam Curing (EBC). The blend of up to 70% natural fibres and thermosetting resins, manufactured under high pressures and temperatures, yields a highly stable, dense panel with good strength-to-weight ratio.

METEON® LUMEN

# CREATE MEMORABLE FAÇADES THAT PLAY WITH LIGHT, FROM EXTREME MATT TO SPARKLING GLOSS

Light inspires. Light refreshes. And light can bring new dimensions to design freedom. The Trespa® Meteon® Lumen collection is a unique cladding panel with rich nuances and natural tones that bring a subtle and refined touch to every project. It offers more light-absorbing, matt effect qualities, as well as more natural or high-reflective aspects. The possibilities are endless, but they all have one thing in common: a calming, crisp result with a confident sense of style that brings every project to life.

The Trespa® Meteon® Lumen collection includes up to three unique finishes and is designed to add a feeling of movement, depth, tone, and liveliness to your projects. And because the collection is available in a rich palette of colours, you can design memorable façades with impressive qualities that make them stand out.

## FINISHES

For more information on the finishes please see page 18

On the southernmost tip of Oceania, a special place can be found: the island of Jacquemart, Part of New Zealand, and located at 2°37'10"S 169°07'33"E, it's a remarkable spot when embarking on an ocean journey. The name commemorates Captain J. Jacquemart, of the vessel FRWS Vire, who made his expedition back in 1874. Even then, Captain Jacquemart was stunned by the way the local currents caused something incredibly special - a deep, blue-green combination of colour. As mysterious as it is deep. But it's at this location where the real magic happens. On the right tide, around noon, it reflects a rare blue that can be found nowhere else in the world. That special moment, with its unique tones, was the inspiration for our brand-new shade, which will be only available in diffuse to give the colour a very matt and velvety finish. We hope it will inspire you with new designs ideas.

Tuscany in Italy has endless spectacular scenery. It's easy to be inspired by the classic sights around every corner. Beautiful, verdant green hills, lined with cypress trees, lush forests in the valleys, and of course the olive orchards that seem to be on each and every hillside. On summer days, just before the olives are picked, their ripe scent is in the air. It's at this time that the Tuscan olive trees are at their most colourful. The shades of green speckled with the black olives is unmistakable. The green of the olive tree leaves takes on a very special hue. It is this Tuscan olive hue that has inspired our new colourway, which will be only available in a matt and velvety diffuse finish. We hope it will inspire you with new designs and ideas.

**DIFFUSE**

# PREMIUM FAÇADE WITH A DEEP MATT SURFACE

The Trespa® Meteon® Lumen Diffuse finish helps you create new, state-of-the-art designs while using natural light as a design element. This 'less is more' product absorbs light and removes shine and texture, creating a velvety smooth, subdued matt appearance. Meteon® Lumen Diffuse will bring instant tranquillity, giving a façade a unique and desirable look. The light-absorbing quality of these panels creates an interplay of shades and a unique tonal depth. A feature that enhances colours without detracting from the overall design.

**OBLIQUE**

# A NATURAL TOUCH FOR EVERY SURFACE

The Trespa® Meteon® Lumen Oblique finish is a unique product with impressive design results. Its natural, weathered look can enhance any façade with a pleasantly irregular matt and gloss surface. The result: a new dimension of liveliness to augment your projects.

The Trespa® Meteon® Lumen Oblique finish finds its inspiration in nature, which brings natural elements to your design. It creates an impressive atmosphere, especially when combined with other finishes. And thanks to its ability to reflect light in an irregular way, it also brings a crisp and natural touch to every surface. Subtle, but with impact that packs a real design punch.

**SPECULAR**

# ADDING LIVELINESS THROUGH GLOSS

The Trespa® Meteon® Lumen Specular finish reflects its surroundings, adding liveliness with deep colours and gloss. Buildings become seamlessly integrated into the environment, resulting in a vibrant designed façade. Combined with natural tones, it gives you even more freedom to design contemporary façades with a subtle elegance that will never go out of style.

The Trespa® Meteon® Lumen Specular finish integrates perfectly with our other finishes. So you can blend aspects of modern design with colours, variations, and fascinating reflections of natural light.

# THE BEAUTY OF BEING BOLD

THE NEXT MATERIAL HOUSE (NEMHO)

“Nemho, our new shared R&D centre in Weert, next to Trespa’s main office, fulfils a dual purpose. For all companies belonging to the broadview group, it is a technology and competence hub.”

*André Horbach, CEO of Trespa*

“I had never built with Trespa® products before, but I was convinced from the start that we had to come up with something special – a spectacular idea that would reveal some of the untapped aesthetic potential of Trespa® Meteon® façade panels. We always strive for concepts that will inspire people and make them happy to live or work in the buildings we create.”

*Erik van Eck, architect Broekbaema*

# TRESPA® METEON® LUMEN

THE BEAUTY OF BEING BOLD

Erik van Eck remarks: “We started with the picture of a forest in Finland and then, we zoomed in to create a close-up – all the way down to the molecular structure. This resulted in several levels of readability: the design interacts with the viewer on a macro, meso and micro level. At the same time, we played with black. Trespa® Meteon® Lumen panels come in a rather unusual variety of shades and finishes, from shiny to satin to matt. This allowed us, by combining three finishes – Diffuse, Specular and Oblique – to create a design that literally comes to life in the sun, when each finish reflects the light in its own, more or less muted, ever changing way”.

“The nemho façade was indeed a major challenge, but I tend to consider that everything is possible – and that in the end, it will still be cheaper than flying to the moon. As Erik van Eck remarked, our mock-up was a turning point. From then on, things started rolling fast. There is hardly a day when I do not deal with a Trespa project, so I just had to make this work”.

*Sven Drooghmans, installer Limeparts-Drooghmans*

### GENERAL

These terms apply to the use of this document and such use automatically means that the other party agrees to these terms. The information provided by Trespa International B.V. ("Trespa") in this document is solely indicative. Trespa is unable to warrant the accuracy and completeness of this information. Trespa may change the information included in this document at any time and without further notice. Trespa's customers and third parties must ascertain that they have the most recent document (for the most recent version, please consult: [www.trespa.com](http://www.trespa.com)). No rights can be derived from the information provided; the use of the information is at the other party's risk and responsibility. Trespa does not warrant that the information in this document is suitable for the purpose for which it is consulted by the other party. This document does not contain any design, structural calculation, estimate or other warranty or representation that customers and third parties may rely on. This document does not guarantee any properties of Trespa products. Colours used in Trespa's communications (including but not limited to printed matter) and in samples of Trespa's products may differ from the colours of the Trespa products to be supplied. Samples are not intended for use in product tests and are not representative of characteristics of the Trespa

products. Trespa's products and samples are produced within the specified colour tolerances and the colours (of production batches) may differ, even if the same colour is used. The viewing angle also influences the colour perception. Metallics panels feature a surface whose colour appears to change based on the direction from which it is viewed. The specified colour stability and colour specifications relate only to the decorative surface of the Trespa products, not to the core material and samples of the Trespa products. Trespa products are delivered ex-works with straight, sawn sides. Customers and third parties must have a professional adviser inform them about (the suitability of) the Trespa products for all desired applications and about applicable laws and regulations. Trespa does not warrant the above. The most recent version of the current delivery programme and the Material Properties Datasheet can be found at [www.trespa.info](http://www.trespa.info). Only the information in the most recent and valid Material Property Datasheet should be used to select and provide advice regarding Trespa products. Trespa reserves the right to change (the specifications for) its products without prior notice.

### LIABILITY

Trespa is not liable (neither contractual nor non-contractual) for any damage arising from or

related to the use of this document, except if and to the extent that such damage is the result of wilful misconduct or gross negligence on the part of Trespa and/or its management. The limitation of liability applies to all parties affiliated with Trespa, including but not limited to its officers, directors, employees, affiliated enterprises, suppliers, distributors, agents, and representatives.

### GENERAL CONDITIONS

All oral and written statements, offers, quotations, sales, supplies, deliveries and/or agreements and all related activities of Trespa are governed by the Trespa General Terms and Conditions of Sale (*Algemene verkoopvoorwaarden Trespa International B.V.*) filed with the Chamber of Commerce and Industry for Noord- en Midden-Limburg in Venlo (NL) on May 9th, 2023 under number 24270677, which can be found on and downloaded from the Trespa website, [www.trespa.com/documentation](http://www.trespa.com/documentation). All oral and written statements, offers, quotations, sales, supplies, deliveries and/or agreements and all related work of Trespa North America, Ltd. are governed by the Trespa North America General Terms and Conditions of Sale, which can be found on and downloaded from the Trespa website, [www.trespa.com/documentation](http://www.trespa.com/documentation). A copy of these general conditions of sale will be provided free of

charge on request. All general terms and conditions other than the conditions mentioned above are dismissed and do not apply, regardless of whether such terms and conditions are referred to on requests for offers, offer confirmations, stationery and/or other documents of the other party, even if Trespa does not expressly object to such terms and conditions.
